

Automatic Upload System

Introduction

- Final exams (and projects) can be submitted with a mouse click from within Eclipse
- There are two phases:
 - ♦ Initial settings
 - ♦ Submission

Initial settings

SoftEng
http://softeng.polito.it

Initial settings

When Eclipse starts, insert your student ID code

SoftEng
http://softeng.polito.it

Initial settings

... and your email address

SoftEng
<http://softeng.unibo.it>

Initial settings

Check the data and confirm with "yes"
(data can be modified by clicking "no")

SoftEng
<http://softeng.unibo.it>

Initial settings

Confirm again (name is showed)

SoftEng
http://softeng.unibo.it

Initial settings

Reboot Eclipse

SoftEng
http://softeng.unibo.it

After reboot...

Eclipse restarts and notifies the presence of configuration file (containing the data you just entered)

SoftEng
<http://softeng.unibo.it>

After reboot...

Eclipse asks to check and confirm data again. If Eclipse froze previously or student changed, correct data can be entered again!

Submission

SoftEng
http://softeng.polito.it

Submission

From Package Explorer pane (Java Perspective), right click over a project element and select “Sottometti il Progetto”

SoftEng
http://softeng.polito.it

Submission

A pop-up window informs you about the successfulness of completed operation. Then, Eclipse closes.

- ◆ An email containing a copy of submitted material is sent back to you
